

STRIPPING HAND TOOL CABLE BST

SMART AND SECURE

Flexible and solid wires with PVC insulation of cross-sections from

0,03 to 16,0 mm² can be stripped free of damage with the new stripping tool. With the cutting function, which has an integrated hand protection, solid wires up to a cross-section of 6,0 mm² and flexible wires up to a cross-section of 16,0 mm² can be cut precisely.

Also V-Blades are available for the bigger wire sizes, up to 16²mm

Equipped with a smart self-adjustment of all cross-sections and an additional "POWERPLUS" for special cables fatigue-free work for the operator is possible at all times.

The stripping tool CABLE BST is a true multi talent! Different stripping blades can be changed quickly and without the help of tools. The integrated "SAVELINE" in the handle offers the operator a safe storage. The stripping tool provides a clear price advantage compared to other unchangeable systems.

The main components of the reliable stripping tool are made of glass fibre polyamide and ensure the operator a long product life cycle.
